Pentingnya penerapan Standar Nasional Perpustakaan Umum Kota Nomor 2 Tahun 2024 sebagai pedoman dalam pengelolaan perpustakaan, khususnya pada tahapan manajemen koleksi guna mendukung kualitas layanan perpustakaan umum. Namun, dalam praktiknya masih terdapat beberapa tahapan manajemen koleksi yang belum sepenuhnya sesuai dengan ketentuan standar. Penelitian ini bertujuan untuk mendeskripsikan implementasi Standar Nasional Perpustakaan Umum Kota Nomor 2 Tahun 2024 pada tahapan manajemen koleksi di Dinas Perpustakaan dan Kearsipan Kota Bandar Lampung serta mengidentifikasi faktor pendukung dan penghambat dalam penerapannya. Penelitian ini menggunakan metode penelitian kualitatif deskriptif. Teknik pengumpulan data yang dilakukan melalui observasi, wawancara, dokumentasi, dan studi pustaka. Hasil penelitian menunjukkan bahwa Implementasi Standar Nasional Perpustakaan Umum Kota Nomor 2 Tahun 2024 pada tahapan manajemen koleksi di Dinas Perpustakaan dan Kearsipan Kota Bandar Lampung sebagian besar telah terlaksana dengan cukup baik, diantaranya menyediakan berbagai jenis koleksi, melakukan pengorganisasian koleksi sesuai standar, serta melakukan kegiatan pengembangan koleksi, cacah ulang dan penyiangan, dan pelestarian bahan pustaka. Namun belum sepenuhnya memenuhi seluruh indikator karena masih terdapat beberapa kekurangan, seperti belum tersedianya kebijakan pengembangan koleksi secara tertulis, belum optimalnya koleksi untuk penyandang disabilitas, dan koleksi elektronik, serta kegiatan cacah ulang dan penyiangan yang belum dilakukan secara berkala. Berdasarkan hasil penelitian tersebut dapat disimpulkan bahwa implementasi standar telah berjalan cukup baik, namun masih diperlukan peningkatan pada beberapa aspek agar penerapan standar dapat terlaksana secara optimal.

## **ABSTRACT**

### **IMPLEMENTATION OF THE NATIONAL STANDARDS FOR MUNICIPAL PUBLIC LIBRARIES NUMBER 2 OF 2024: COLLECTION MANAGEMENT STAGES AT THE LIBRARY AND ARCHIVES OFFICE OF BANDAR LAMPUNG CITY**

**By**

**SITI RUSMAIDAH**

*This research is motivated by the importance of implementing the National Standards for Municipal Public Libraries Number 2 of 2024 as a guideline for library management, particularly in the stages of collection management to support the quality of public library services. However, in practice, there are still several stages of collection management that have not been fully aligned with the established standards. This study aims to describe the implementation of the National Standards for Municipal Public Libraries Number 2 of 2024 in the collection management stages at the Library and Archives Office of Bandar Lampung City and to identify the supporting and inhibiting factors affecting its implementation. This study employed a descriptive qualitative research method. Data collection techniques included observation, interviews, documentation, and literature review. The findings indicate that the implementation of the National Standards for Municipal Public Libraries Number 2 of 2024 in the collection management stages at the Library and Archives Office of Bandar Lampung City has generally been carried out quite well. This includes providing various types of collections, organizing collections according to standards, and conducting collection development activities, stock-taking and weeding, as well as preservation of library materials. However, the implementation has not fully met all indicators due to several shortcomings, such as the absence of a written collection development policy, the lack of optimization of collections for people with disabilities and electronic collections, and the irregular implementation of stock-taking and weeding activities. Based on these findings, it can be concluded that the implementation of the standards has been carried out fairly well; however, improvements are still needed in several aspects to ensure optimal implementation of the standards.*
