

ABSTRACT

LEGAL PROTECTION AGAINST WORKERS OF FILLING AND TRANSPORT STATION LPG BULK OF WORK ACCIDENTS IN DISTRICT OF SOUTH LAMPUNG

**By
AYU KUMALA SARI**

Each worker basically get legal protection from workplace accidents, as stipulated in Law No. 3 of 1992 on Social Security of Labor. The problems of this study are: (1) How is the legal protection of workers and the Filling Station LPG Bulk Transport (SPPBE) of workplace accidents? (2) What factors that become an obstacle in the implementation of the legal protection of workers SPPBE of occupational accidents in South Lampung regency?

This study uses normative and empirical approach. The collection of data with field studies and literature. Data processing includes the selection, classification and compilation of data. The data were analyzed qualitatively juridical.

The results showed: (1) The legal protection of workers SPPBE of occupational accidents in South Lampung regency stipulated in the Company standardized by the Decree of the Head of Social Department of Labor and Transmigration South Lampung District No. Kep: 020/568 / III.05 / I / 2015, consists of protection from workplace accidents resulting in disability, the workers get compensation for partial disability (anatomical defects) and for all at the same time with the amount paid is equal to the wage x 80 (eighty) months wages. Protection of occupational accidents resulting in death, which derive benefit once 60% x 80 months of salary, compensation periodically during the 2 years is rp. 200.000, - per month and funeral costs Rp. 2,000,000. (2) The factors that become an obstacle in the implementation of the legal protection of workers from occupational accidents are SPPBE Company did not implement occupational health and safety standards, so that workers potentially injured at work and workers do not understand the legal protection of occupational accidents, because in general the These workers have a low educational background and lack of understanding of the legal protection of workers.

Suggestion of this research are: (1) the Department of Labor South Lampung regency is advisable to increase the dissemination to workers SPPBE (2) The Company SPPBE advised to implement security standards and appropriate occupational safety laws and regulations are applicable.
