DAFTAR TABEL .......................................................................................................... vii
DAFTAR GAMBAR ..................................................................................................... viii
I. PENDAHULUAN
   A. Latar Belakang .................................................................................................. 1
   B. Rumusan Masalah ......................................................................................... 5
   C. Tujuan Penelitian ......................................................................................... 5
   D. Manfaat Penelitian ....................................................................................... 5
   E. Ruang Lingkup Penelitian ........................................................................... 6

II. TINJAUAN PUSTAKA
   A. Model Pembelajaran Problem Solving ............................................................... 7
   B. Keterampilan Proses Sains ............................................................................. 9
   C. Kemampuan Kognitif ................................................................................... 10
   D. Konsep .......................................................................................................... 11
   E. Kerangka Pemikiran .................................................................................... 21
   F. Anggapan Dasar .......................................................................................... 22
   G. Hipotesis umum .......................................................................................... 22

III. METODOLOGI PENELITIAN
   A. Subyek Penelitian .......................................................................................... 23
   B. Data Penelitian .............................................................................................. 23
   C. Metode dan Desain Penelitian ..................................................................... 23
