

ABSTRACT

THE RELATIONSHIP BETWEEN MASTERY PEDAGOGICAL CONTENT WITH THE MANAGEMENT OF LEARNING EARLY CHILDHOOD IN PAUD SEKECAMATAN WAY HALIM THE CITY OF BANDAR LAMPUNG ACADEMIC YEARS 2014 AND 2015

By

PUJI HAYATI

The problem of this research was low learning management in Early Childhood Education. This study aimed to determine the correlation between pedagogical content mastery with early childhood learning management in PAUD Way Halim district, Bandar Lampung, 2014/2015. The method used simple correlation design (Bivariate Correlation). Data were collected by observation, questionnaire and documentation. Data were analyzed by using cross table analysis and hypothesis testing analysis. The results showed a positive correlation between pedagogical content mastery with early childhood learning management in Way Halim district, Bandar Lampung, period 2014/2015. And the correlation between two variables significant, because the contribution of pedagogical content into early learning education management was very big.
