**BAB I. PENDAHULUAN**

A. Latar Belakang ................................................................. 1
B. Rumusan Masalah................................................................. 16
C. Tujuan Penelitian............................................................... 17
D. Kegunaan Penelitian............................................................. 18
E. Kerangka Pemikiran............................................................... 18
F. Hipotesis................................................................. 22
G. Ruang Lingkup Penelitian......................................................... 23

**II. TINJAUAN PUSTAKA**

A. Teori Dasar Pengeluaran Pemerintah................................. 24
   1. Teori Wagner dan Pengikutnya........................................ 24
   2. Teori keynes............................................................. 26
B. Pengeluaran Pemerintah dan pertumbuhan Ekonomi.................... 27
C. Investasi dan pertumbuhan Ekonomi..................................... 33
D. Tenaga Kerja dan Pertumbuhan Ekonomi................................. 35
E. Pendapatan Asli Daerah dan pertumbuhan Ekonomi..................... 37
F. Teori Pertumbuhan Ekonomi.................................................. 39
   - Teori Pertumbuhan Sollow dan Swan................................... 39
G. Kajian Penelitian Sebelumnya.............................................. 46
III. METODOLOGI PENELITIAN

A. Jenis dan Sumber Data ............................................................... 52
B. Definisi Operasional ................................................................. 53
  1. Produk Domestik Regional Bruto .............................................. 53
  2. Investasi Pemerintah ............................................................. 54
  3. Realisasi Nilai Investasi Swasta ............................................. 54
  4. Tenaga Kerja ........................................................................ 54
C. Model Analisis ........................................................................ 55
D. Pengujian hasil Persamaan Regresi ......................................... 56
   - Pengujian Asumsi Klasik ......................................................... 56
   - Uji Normalitas ....................................................................... 57
   - Uji Multikolinearitas ............................................................ 58
   - Uji Heterokedastisitas ......................................................... 59
   - Uji Autokorelasi .................................................................. 59
E. Uji Hipotesis ........................................................................... 60
   - Uji t (Keberartian Parsial) .................................................... 60
   - Uji F (Keberartian Keseluruhan) ........................................... 62

IV. HASIL DAN PEMBAHASAN

A. Hasil Perhitungan Regresi ....................................................... 64
  1. Uji Hipotesis .......................................................................... 65
     - Uji t- Statistik ..................................................................... 65
     - Uji F- Statistik .................................................................... 66
     - Koefisien determinasi Analisis ......................................... 67
  2. Uji Asumsi Klasik ................................................................. 68
     - Uji Multikolinearitas .......................................................... 68
     - Uji Heterokadasitas ............................................................ 70
     - Uji Autokorelasi ............................................................... 71
     - Uji Normalitas ................................................................. 71
B. Pembahasan dan Implikasi hasil ............................................. 72
   1. Pengaruh Investasi Pemerintah Pertenaga Kerja Terhadap Pertumbuhan Ekonomi ........................................... 72
   2. Pengaruh Investasi Swasta Pertenaga Kerja Terhadap Pertumbuhan Ekonomi ........................................... 75
   3. Pengaruh PAD Pertenaga Kerja Terhadap Pertumbuhan Ekonomi ........................................... 76
C. Keterbatasan Penelitian ............................................................ 79
