DAFTAR ISI

Halaman

DAFTAR ISI ........................................................................................................ i

DAFTAR TABEL ................................................................................................... iii

DAFTAR GAMBAR ............................................................................................... iv

I. PENDAHULUAN ................................................................................................. 1
   A. Latar Belakang dan Masalah ........................................................................ 1
   B. Tujuan Penelitian .......................................................................................... 3
   C. Kegunaan Penelitian .................................................................................... 4
   D. Kerangka Pemikiran .................................................................................... 4
   E. Hipotesis ....................................................................................................... 6

II. TINJAUAN PUSTAKA ....................................................................................... 7
   A. Deskripsi Ayam Arab ................................................................................... 7
   B. Lama Penyimpanan Telur Tetas .................................................................. 9
   C. Fertilitas ....................................................................................................... 11
   D. Susut Tetas (weight loss) ............................................................................ 12
   E. Daya Tetas .................................................................................................. 14
   F. Bobot Tetas ................................................................................................ 17
G. Manajemen Penetasan Menggunakan Mesin Tetas
1. Suhu
2. Kelembapan
3. Sirkulasi udara
4. Pemutaran telur (turning)
5. Peneropongan telur (candling)

III. BAHAN DAN METODE KERJA
A. Waktu dan Tempat Penelitian
B. Bahan dan Alat Penelitian
   1. Bahan penelitian
   2. Alat penelitian
C. Rancangan Percobaan
   1. Rancangan lingkungan
   2. Rancangan perlakuan
   3. Rancangan respon
D. Pelaksanaan Penelitian
E. Parameter Penelitian
   1. Fertilitas
   2. Susut tetas
   3. Daya tetas
   4. Bobot tetas

IV. HASIL DAN PEMBAHASAN
A. Gambaran Umum Peternakan
B. Pengaruh Lama Penyimpanan Telur Tetas terhadap Fertilitas....... 30
C. Pengaruh Lama Penyimpanan Telur Tetas terhadap Susut Tetas .. 33
D. Pengaruh Lama Penyimpanan Telur Tetas terhadap Daya Tetas... 37
E. Pengaruh Lama Penyimpanan Telur Tetas terhadap Bobot Tetas . 39

V. KESIMPULAN DAN SARAN .......................................................... 42
   A. Kesimpulan............................................................................. 42
   B. Saran .................................................................................... 42

DAFTAR PUSTAKA ........................................................................... 43
LAMPIRAN......................................................................................... 49
