DAFTAR ISI

DAFTAR ISI .............................................................................................................. xi
DAFTAR GAMBAR ................................................................. xiv
DAFTAR TABEL ................................................................. xvii
DAFTAR LAMPIRAN ............................................................ xviii

BAB I PENDAHULUAN ................................................................. 1
  1.1. Latar Belakang .......................................................................... 1
  1.2. Rumusan Masalah ...................................................................... 4
  1.3. Batasan Masalah ...................................................................... 4
  1.4. Tujuan ................................................................................... 5
  1.5. Manfaat ................................................................................ 5

BAB II TINJAUAN PUSTAKA .............................................................. 6
  2.1. Budidaya Ikan Air Tawar ...................................................... 6
      2.1.1. Penyakit Ikan Budidaya Air Tawar .................................... 8
      2.1.2. Tindakan Terhadap Penyakit ............................................. 13
  2.2. Sistem Pakar ........................................................................... 14
      2.2.1. Definisi Sistem Pakar ....................................................... 14
      2.2.2. Ciri-Ciri Sistem Pakar ....................................................... 15
      2.2.3. Manfaat Sistem Pakar ....................................................... 16
      2.2.4. Kekurangan Sistem Pakar ............................................... 17
      2.2.5. Perbandingan Pakar dan Sistem Pakar ............................ 17
      2.2.6. Perbandingan Sistem Konvensional dengan Sistem Pakar 18
      2.2.7. Konsep Dasar Sistem Pakar .............................................. 19
          2.2.7.1. Kapakaran ................................................................. 19
          2.2.7.2. Pakar ...................................................................... 19
2.2.7.3. Pemindahan Kepakaran ........................................... 20
2.2.7.4. Inferensi .................................................................. 20
2.2.7.5. Aturan-aturan ......................................................... 20
2.2.7.6. Kemampuan Menjelaskan ....................................... 20
2.2.8. Bentuk Sistem Pakar .................................................... 21
2.2.9. Struktur Sistem Pakar .................................................. 21
2.2.10. Basis Pengetahuan .................................................... 24
2.2.11. Mesin Inferensi ......................................................... 25
2.2.12. Metode *Forward Chaining* ....................................... 28
2.2.13. Klasifikasi Sistem Pakar ............................................ 31
2.2.14. Probabilitas Klasik .................................................... 32
2.3. *Data Flow Diagram* ..................................................... 33
2.4. *Entity Relationship Diagram* ...................................... 34
2.4.1. Derajat Kardinalitas ................................................... 37
2.5. *Flowchart* .................................................................. 39
2.6. *Equivalence Partitioning* ............................................. 41
2.7. Skala *Likert* ............................................................... 41

**BAB III METODE PENELITIAN** ......................................... 43

3.1. Waktu dan Tempat Penelitian ......................................... 43
3.2. Alat Pendukung ............................................................. 43
3.3. Tahapan Penelitian ........................................................ 44
3.3.1. Studi Literatur ........................................................... 44
3.3.2. Pengumpulan Data ..................................................... 45
3.3.3. Perancangan Sistem ................................................... 45
3.3.3.1. Deskripsi Sistem ...................................................... 45
3.3.3.2. *Flowchart* .......................................................... 46
3.3.3.3. Diagram Konteks ................................................... 46
3.3.3.4. *Data Flow Diagram* ............................................ 46
   A. DFD Level 1 ............................................................... 46
   B. DFD Level 2 Pengelolaan Data Pakar ......................... 52
   C. DFD Level 2 Pengelolaan Data Ikan ......................... 52
   D. DFD Level 2 Pengelolaan Data Penyakit ................. 53
E. DFD Level 2 Pengelolaan Data Gejala .......... 54
F. DFD Level 2 Pengelolaan Data Relasi .......... 55
G. DFD Level 2 Pengelolaan Konsultasi .......... 56
H. DFD Level 2 Proses Konsultasi ............... 57

3.3.3.5. Entity Relationship Diagram ................. 59
3.3.3.6. Desain Antarmuka ........................................ 59
A. Pakar .................................................. 61
B. Pembudidaya .......................................... 66

3.3.4. Pembuatan Sistem ........................................... 69
3.3.5. Pengujian Sistem ......................................... 70
3.3.6. Penulisan Laporan ......................................... 70

BAB IV HASIL DAN PEMBAHASAN ......................... 71
4.1. Analisa Kebutuhan Data ...................................... 71
4.2. Representasi Pengetahuan ................................. 72
4.3. Implementasi Sistem .......................................... 72
  4.3.1. Halaman Data Masukan (Input) .................. 73
  4.3.2. Halaman Proses Konsultasi .................... 77
  4.3.3. Halaman Keluaran ................................ 86
  4.3.4. Analisa Persentase Penyakit .................... 87
4.4. Pengujian .................................................. 88
  4.4.1. Pengujian Internal ................................... 89
    4.4.1.1. Pengujian Fungsional .......................... 89
    4.4.1.2. Pengujian Diagnosa .......................... 91
  4.4.2. Pengujian Eksternal ................................. 92
    4.4.2.1. Analisa Hasil Kuisioner .................... 94

BAB V KESIMPULAN DAN SARAN ................................. 104
5.1. Kesimpulan ................................................. 104
5.2. Saran .................................................... 104
