Protection of witnesses and complainants will provide a guarantee to provide a true testimony as a form of law enforcement and justice, in particular the protection of witnesses and complainants. Issues raised in this research is how the protection of the law against witnesses and complainants in money laundering as well as how the process of implementing legal protection of witnesses and complainants. Approach to the problem used in this thesis is a normative juridical approach and empirical jurisdiction. Results of research and discussion in mind that the efforts of legal protection for witnesses and complainants in money laundering given the Indonesian National Police and the public prosecutor in the form of a guarantee of security protection, the right of identity concealment, and evacuation shelter while. The process of granting protection to witnesses and the reporting of money laundering in the Indonesian National Police refers to Police Chief Regulation No. 17 of 2005 on the Special Protection Against Rapporteur and witnesses in Money Laundering. This procedure starts with applying for protection, after which it will be done clarification of the truth of the report and request for protection of witnesses and complainants. For stopping the protection of witnesses and complainants based assessment republic Indonesian police officers are authorized
