Feminism shows that women are equal with men and may also have authority over men. Women who have the ability, expertise, and can explore their potential optimally, and able to master and not to be underestimated by men serve as the benchmark for feminism. Based on this background, the objective of this study was to determine and describe the concept of feminism and to know the different concepts in The Hunger Games and Divergent novel. Both of the novels are the novels which have the same genre discussed about the woman as main character.

The researcher used Tong's theory to analyze the concept of feminism in this study. To support this analysis, the researcher also developed it with other theories, like Humm and Abrams's theories. The method used is qualitative, where researcher could find the representation of the feminism concepts based on the clear and factual description and the evidences of the representation of feminism concepts contained in The Hunger Games and Divergent novel.

*The results of this study showed there are 20 contents of 8 concepts of feminism. In the Hunger Games novel were found 5 of 8 concept, consisting liberal, Marxist, existentialism, psychoanalysis and gender and ecofeminism.
