Research issues are raised in the Kecamatan perform the role of aggregation Pekon interest in the development planning process by taking a case study in Kecamatan Bulok Kabupaten Tanggamus. The purpose of this study is to determine the role of the Government of the Kecamatan Bulok Kabupaten Tanggamus Interest in Doing Aggregation Pekon on Development Planning Process. The method used is descriptive qualitative. The results showed Kecamatan Bulok District has been instrumental in making aggregation Pekon interest in the development planning process, but still not maximized because there are limiting factors are lack of quality human resources Pekon devices, the lack of the proposed program of development and establishment of Pekon and stillless intensity planning dialogue development, and the pessimistic attitude of society in the follow Musrenbang Kecamatan. So it is recommended that Kecamatan can further intensify the dialogue with the development plan Pekon through forums such as the forum in addition to Musrenbang Kecamatan Coordination Meeting which is held regularly once a month. And it is important also to empower existing UPT in the Kecamatan development planning so that the quality of the determination of priorities more weight, so it is necessary to the fore to give the government authority to control the Kecamatan of UPT performance in the field of development especially in infrastructure.
