Abstract: English club meant for the students of SMP Negeri 09 Kotabumi. The goal of the research is to inform and recommend the reach of English club in SMP Negeri 09 Kotabumi on these four aspects: 1) Context, analyzing the needs of English club and also analyzing the visions and missions of SMP Negeri 09 Kotabumi. 2) Input, qualifying the tutors and the utensils needed for the English club. 3) Process, analyzing the media and the method used on English club, English fun day and English wall magazine. 4) Product, analyzing the reach of English club, English fun day and English wall magazine.

The construction of this research is named as the CIPP evaluation which means that all the data are collected by doing the observations, interviews and voting or angket. The evaluations are analyzed by using the statistic descriptive.

The research has concluded that: 1) The Context aspects, English club have the same visions and missions with SMP Negeri 09 Kotabumi and also supported by the utensil needed but it needs to be improved so that the students adore it. 2) The Input aspect, the tutors are competent and the curriculum is fit. 3) The Process aspect, the study is using the visual media and it has been cooperative but the maintenances are yet unimproved. 4) The Product aspect, it has reached 22% for the English club, 20% for the English fun day and 16% for the English wall magazine.

The research recommends that the English club program should be seized by doing the program adjusting, because it is implement, yet, only twice a week, the tutors are lack of electronics media so that the study is not delightful and it ought to have play role and English competition in or out of the school.

Key words: evaluation, extra curricular, english club program.
