</thead>
<tbody>
<tr>
<td>A.</td>
<td>Latar Belakang Masalah</td>
<td>1</td>
</tr>
<tr>
<td>B.</td>
<td>Identifikasi Masalah</td>
<td>10</td>
</tr>
<tr>
<td>C.</td>
<td>Pembatasan Masalah</td>
<td>10</td>
</tr>
<tr>
<td>D.</td>
<td>Rumusan Masalah</td>
<td>11</td>
</tr>
<tr>
<td>E.</td>
<td>Tujuan Penelitian</td>
<td>12</td>
</tr>
<tr>
<td>F.</td>
<td>Kegunaan Penelitian</td>
<td>12</td>
</tr>
<tr>
<td>G.</td>
<td>Ruang Lingkup Penelitian</td>
<td>13</td>
</tr>

BAB III Metodologi Penelitian

A. Metode Penelitian .......................................................... 43
B. Populasi dan Sampel .......................................................... 48
1. Populasi .............................................................. 48
2. Sampel .............................................................. 48
C. Variabel Penelitian ......................................................... 49
D. Definisi Konseptual Variabel ............................................ 50
E. Definisi Operasional Variabel ............................................ 51
F. Teknik Pengumpulan Data ............................................... 52
G. Uji Persyaratan Instrumen ............................................... 53
1. Uji Validitas Instrumen .................................................. 54
2. Uji Reabilitas Instrumen ................................................. 55
3. Taraf Kesukaran ......................................................... 56
4. Daya Beda ............................................................. 57
H. Uji Persyaratan Analisis Data ........................................... 58
1. Uji Normalitas ......................................................... 58
2. Uji Homogenitas ....................................................... 58
I. Teknik Analisis Data ......................................................... 59
1. T-test Dua Sampel Independen ...................................... 59
2. Analisis Varians Dua Jalan ........................................... 60
J. Pengujian Hipotesis ......................................................... 62
## BAB IV HASIL PENELITIAN

A. Gambaran Umum Lokasi Penelitian .................................................. 64
   1. SMP Negeri 14 Bandar Lampung ........................................... 64
   2. Visi Dan Misi SMP Negeri 14 Bandar Lampung ....................... 65
   3. Proses Belajar dan Pembelajaran ............................................ 65
   4. Kondisi Siswa ......................................................................... 66
   5. Sarana Dan Prasarana ............................................................ 66
   6. Struktur Organisasi ................................................................. 66
   7. Kegiatan Ekstrakulikuler ......................................................... 66

B. Deskripsi Data .................................................................................. 67
   1. Data Hasil Tes Kemampuan Awal Kelas Eksperimen ............... 68
   2. Data Hasil Post Test Kelas Eksperimen .................................... 69
   3. Data Hasil Tes Kemampuan Awal Kelas Kontrol ..................... 71
   4. Data Hasil Post Test Kelas Kontrol .......................................... 72

C. Pengujian Persyaratan Analisi Data .................................................. 74
   1. Uji Normalitas .......................................................................... 74
   2. Uji Homogenitas ...................................................................... 75

D. Hasil Belajar IPS Terpadu di Kelas Eksperimen dan Kelas Kontrol .... 77

E. Pengujian Hipotesis ........................................................................ 77

F. Pembahasan ..................................................................................... 86

## BAB V KESIMPULAN DAN SARAN

A. Kesimpulan ..................................................................................... 98

B. Saran ................................................................................................ 99
