DAFTAR TABEL ................................................................. xiv
DAFTAR GAMBAR .......................................................... xv
DAFTAR LAMPIRAN ......................................................... xvi

1. PENDAHULUAN ............................................................ 1
   A. Latar Belakang ......................................................... 1
   B. Identifikasi Masalah ................................................ 3
   C. Pembatasan Masalah ............................................... 4
   D. Perumusan Masalah ............................................... 4
   E. Tujuan Penelitian .................................................. 5
   F. Manfaat Penelitian ................................................ 5

II. TINJAUAN PUSTAKA ..................................................... 7
   A. Pendidikan Jasmani ................................................ 7
      1. Ruang Lingkup Pendidikan Jasmani .................. 8
      2. Keberhasilan Program Pendidikan Jasmani ....... 9
   B. Karakteristik Siswa SMA ...................................... 12
   C. kegiatan Ekstrakurikuler ................................... 13
   D. Kondisi Fisik ......................................................... 14
   E. Teori Belajar Gerak .............................................. 16
   F. Tahapan Belajar Gerak ........................................... 17
      1. Tahap Kognitif .................................................... 17
      2. Tahap Asosiatif ................................................... 18
      3. Tahap Otomatis ................................................... 18
      4. Keseimbangan .................................................... 19
      5. Koordinasi Mata dan Kaki ................................. 20
   G. Permainan Sepak Takraw .................................... 23
   H. Kerangka Pikir ..................................................... 30
   I. Hipotesis .............................................................. 31

III. METODOLOGI PENELITIAN ........................................ 32
   A. Metode Penelitian ............................................... 33
   B. Variabel Penelitian ............................................. 33
   C. Definisi Operasional Variabel ............................. 34
   D. Populasi dan Sampel ........................................... 35
   E. Teknik Pengumpulan Data ................................... 36
F. Instrumen Penelitian ................................................................. 36
G. Analisis Data ........................................................................... 39

IV. HASIL PENELITIAN DAN PEMBAHASAN ......................... 44
A. Hasil Penelitian ...................................................................... 44
   1. Deskripsi Data Penelitian .................................................. 44
   2. Variabel Keseimbangan ....................................................... 45
   3. Variabel Koordinasi Mata dan Kaki .................................. 47
   4. Variabel Hasil Sepak Mula ................................................ 49
   5. Pengujian Hipotesis ............................................................ 51
      a. Hubungan Antara Keseimbangan Dengan Hasil Sepak Mula Pada Sepak Takraw .................................................. 51
      b. Hubungan Antara Koordinasi Mata dan Kaki Dengan Hasil Sepak Mula Pada Sepak Takraw ............................... 51
      c. Hubungan Antara Keseimbangan dan Koordinasi Mata dan Kaki Dengan Hasil Sepak Mula Pada Sepak Takraw ........... 52
B. Pembahasan Penelitian .......................................................... 52

V. KESIMPULAN DAN SARAN .................................................. 57
A. Kesimpulan ............................................................................ 57
B. Saran ...................................................................................... 57
