CHAPTER III
CONCLUSIONS AND SUGGESTIONS

3.1 Conclusions

Based on the introduction and the disccussion have been presented above, it can be concluded that:

1. Raden Inten II Airport is one of government institution which has function to carry out coordination, facility, observation, control, service to guarantee security, safety, and also orderliness in the airport.

2. Briefing Office (BO) of Raden Inten II Airport is one of operational units. All of information of fligh is controlled in this office and all of activities are related to the use of English because Briefing office always give the information by using English language.

3. International Civil Aviation (ICAO) is an aviation sector of United Nation, which organizes all the requirement of aviation in the world.

4. Raden Inten II Airport has two elements,they are operational units and non operational units. Operational units consist of Information Service, Briefing Office (BO), and Air Traffic Control (ATC). And non operational units have some sections such as personal Affair sections, Equipment Affair section, and administration sections.

5. Notam is one of the messangers that enables to support safety, regularity, and efficiency of flight. The function of Notam is to notify information to the user in advance of the information about the event which influences the regularity and flight safety.

3.2 Suggestions

From the result of the field practice report and the analysis, some suggestions to Raden Inten II Airport in increasing its work quality are given as follows :

1. Raden inten II Airport should train the employees to increase their ability and skill in handling office work. For example, the employees can follow seminar, training of trainer (TOT), etc, so that they can carry out their duties professionally.

2. Raden Inten II Airport should provide good service and repair all for aviation in order to be able to give good flight service to the public. For example, Raden Inten II Airport should provide special place for people who will have a flight.

3. Diploma III program in English Professional has to improve its curriculum especially in speaking skill and writing skill. It can be achieved by providing native speaker from abroad, so the students of Diploma II Program in English Profession can initiatie authentic model of English spoken skill.

4. The students of Diploma III in English profession must be given a chance to speak English to improve the pronunciation and add the confidence of the students. Because sometimes they speak in English language. So, this subject is needed by student of Diploma III program in English profession to develop speaking skill in the work field.
