# DAFTAR ISI

Halaman

| DAFTAR TABEL ................................................................................................................ | xv |
| DAFTAR GAMBAR .......................................................................................................... | xvii |

## I. PENDAHULUAN

1.1 Latar Belakang Masalah ......................................................................................... 1  
1.2 Rumusan Masalah ................................................................................................. 7  
1.3 Tujuan Penelitian ................................................................................................. 8  
1.4 Manfaat Penelitian .............................................................................................. 8  
1.5 Ruang Lingkup Penelitian .................................................................................... 9  
1.6 Kerangka Pikir .................................................................................................... 10  
1.7 Hipotesis ............................................................................................................... 13

## II. TINJAUAN PUSTAKA

2.1 Pembelajaran dengan Strategi Inkuiri .................................................................. 14  
2.2 Hasil Belajar Siswa ............................................................................................. 22  
2.3 Keterampilan Generik Sains (KGS) ...................................................................... 29

## III. METODE PENELITIAN

3.1 Waktu dan Tempat Penelitian ............................................................................. 37  
3.2 Populasi dan Sampel .......................................................................................... 37  
3.3 Desain Penelitian .................................................................................................. 37  
3.4 Prosedur penelitian ............................................................................................. 38  
3.5 Jenis dan Teknik Pengumpulan Data .................................................................. 45  
3.6 Teknik Analisis Data ............................................................................................ 50

## IV. HASIL PENELITIAN DAN PEMBAHASAN

4.1 Hasil Penelitian .................................................................................................... 55  
4.2 Pembahasan .......................................................................................................... 61

## V. SIMPULAN DAN SARAN

5.1 Simpulan ............................................................................................................... 80  
5.2 Saran .................................................................................................................... 80

LAMPIRAN

1. Silabus .......................................................................................................................... 86
2. Rencana Pelaksanaan Pembelajaran (Eksperimen) ....................................................... 92
3. Rencana Pelaksanaan Pembelajaran (Kontrol) ............................................................ 106
4. Lembar Kerja Siswa (Eksperimen) .................................................................................. 120
5. Kunci Jawaban LKS (Eksperimen) .................................................................................. 136
6. Rubrik Penilaian LKS ..................................................................................................... 144
7. Kisi-kisi Soal Pretest dan Postest (Hasil Belajar Kognitif) .............................................. 149
8. Kisi-kisi Soal Pretest dan Postest (KGS) ........................................................................ 156
9. Rubrik Penilaian Pretest dan Postest Hasil Belajar Kognitif ......................................... 163
10. Rubrik Penilaian Pretest dan Postest KGS ...................................................................... 165
11. Lembar observasi KGS siswa ...................................................................................... 167
12. Angket Tanggapan Siswa ............................................................................................. 169
13. Data Hasil Penelitian .................................................................................................... 170
14. Foto-Foto Penelitian ..................................................................................................... 195
