ABSTRACT

THE APPLICATION OF INDONESIAN-LAMPUng PICTURE DICTIONARY FOR CHILDREN AT ELEMENTARY SCHOOL USING LINEAR SEQUENTIAL MODEL

By:
LIYA DIANA SARI

Lampung dictionary is a media used to search or find a word in Lampung. Dictionaries which are available this time still in be the writing form, whereas the children at elementary school are more interested in drawing than writing. An Indonesian-Lampung pictorial dictionary application is made through this research. It was not only providing a dictionary in writing form (text) but also a picture to illustrate the word. The application is made using the Linear Sequential method with PHP as programming language and MySQL database. The purpose of developing this application is to create a dictionary which more interesting than the common dictionary.
