ABSTRACT

THE DEVELOPING OF AUTOMATED SHALAT'S TIMES' REMINDER BASED ON SMS-GATEWAY

By:

SRI LESTARI

Shalat is the 2nd pillar of Islam, which must be carried out by all of Muslims. Obligatory Shalat consists of 5 (five) different times every day. When a person is far from mosque, a Shalat's times' reminder is necessary while the Shalat's time is coming.

SMS (Short Message Service) is one of the most simple communication technologies. a Gammu service in SMS application can be an alternative way to send SMS, such as SMS Broadcast, SMS Gateway, and Scheduled SMS effectively and efficiently. Automated Shalat's times reminder is an application that could help to remind users, especially Muslims, when the time for obligatory Shalat is coming.
