ABSTRACT

LEADERSHIP STYLE HEAD OF VILLAGE IN VILLAGE MUSRENBANG
(Studies in the village Margo Mulyo Tegineneng Pesawaran District Sub-district)

By
MUHAMMAD TRIO HANDIE

Related rural governance in practice is still faced with many problems, one of which is the village head's leadership which indicate non-compliance with the spirit of democracy, a common phenomenon also occurred in the village of Margo Mulyo. Margo Mulyo village is one of the villages in the subdistrict Tegineneng Pesawaran District. Rural development in the implementation of the District Tegineneng Margo Mulyo Pesawaran District implemented by the village head helped by village, however, the village chief not involve participation of the Village Consultative Body (BPD). This was explained by Mr. Kasdi as a member of BPD which states that the Village Head rarely invited BPD at the moment will carry out a work program.

This study uses qualitative research type. Qualitative research is research that aims to understand the phenomenon of what is experienced by the subject of the study such behavior, perceptions, motivations, actions and others. As a research subject is the village that BPD Chairman and Chairman of RW as well as the head of the village itself directly involved and include characteristics and leadership style village head.

The results obtained by leadership styles used by the border of the Village Head Mulyo district tegineneng Pesawaran District 2015 are included in an authoritarian leadership style.

Keywords: Leadership Style, Village Head, Musrenbang
