5.1 Conclusions

Finally, after conducting the research at the fifth grade SDN 2 Metro Selatan Kota Metro, the researcher concluded as follow:

1. The flashcard can significantly increase students' vocabulary mastery at the fifth grade of SDN 2 Metro Selatan. It is proved by the increase of students' mean score in posttest that was higher than mean score in pretest. The mean score increased from 64.44 to 80.47. The gain of pretest and posttest was 16.04. The hypothesis test $0.000 < 0.05$ is accepted. Therefore, it can be concluded this flashcard could increase students' vocabulary significantly.

The implementation of flashcard can increase students' vocabulary mastery more significantly. Therefore we can conclude that teaching learning through flashcard creates more conducive condition and situation for the students' at the fifth grade of SD2 Metro Selatan. The students' were more active and enthusiasm in learning vocabulary. Flashcard can be used to increased students vocabulary, especially in vocabulary content word, such as noun, verb, and adjective.

2. The researcher could see that the students' vocabulary mastery increased, especially in content word: Noun, Verb, and Adjective. And the high score in content word was Noun (84) from 227 into 311. In verb there was also a high increase (29) from 175 into 204. And the last aspect was adjective (19) from 108 into 127. Furthermore for adjective, this was lowest score of vocabulary that increase only was (19) from 108 into 127. So, the better aspect of vocabulary among verb, noun, and adjective is noun because it is easier, and easy to find the real example in our daily life.

5.2 Suggestion

Considering the result and the conclusion the research, the writer would like to propose some suggestion as follow:

- For the teacher
 1. In this research, the researcher found out that Flashcard can be applied to increase students' vocabulary mastery. Therefore, the English teachers are recommended to apply flashcard as one of the way in teaching because it can help the students who still have problem in vocabulary mastery in content word that are noun, verb, and adjective. Flashcard can encourage the students to be more active and creative in teaching learning process, and it is also applicable for beginner students.
 2. The teacher would create various materials, besides the teacher is also suggested to use interesting media for example by using LCD with interesting picture. It can be used as a tool to encourage the students'

attention. Once they have good attention, it easy for them to learn English and to participate in learning
