DAFTAR ISI

I. PENDAHULUAN

1.1 Latar Belakang ................................................................. 1
1.2 Permasalahan ................................................................. 8
1.3 Tujuan dan Manfaat Penelitian ............................................. 9
1.4 Kerangka Penelitian .......................................................... 9
1.5 Hipotesis ............................................................................ 17

II. LANDASAN TEORI

2.1 Manajemen ........................................................................ 18
   2.1.1 Pengertian .................................................................... 18
   2.1.2 Fungsi Manajemen ....................................................... 19
2.2 Manajemen Sumber Daya Manusia ...................................... 21
   2.2.1 Pengertian .................................................................... 21
   2.2.2 Fungsi Manajemen Sumber Daya Manusia ....................... 22
2.3 Pelatihan ............................................................................. 26
   2.3.1 Pengertian .................................................................... 26
   2.3.2 Tujuan Pelatihan ............................................................ 26
   2.3.3 Alasan Pentingnya Diadakan Pelatihan ............................. 27
   2.3.4 Teknik-teknik Pelatihan ................................................ 28
2.3.5 Manfaat Pelatihan ....................................................... 31
2.4 Kompensasi ................................................................. 33
  2.4.1 Pengertian Kompensasi ............................................ 33
  2.4.2 Jenis-jenis Kompensasi ............................................ 34
  2.4.3 Tujuan Kompensasi .................................................. 38
  2.4.4 Faktor-faktor yang Mempengaruhi Kompensasi .......... 40
  2.4.5 Tahapan Menetapkan Kompensasi ......................... 43
2.5 Kinerja ........................................................................ 45
  2.5.1 Pengertian Kinerja .................................................... 45
  2.5.2 Faktor-faktor yang Mempengaruhi Kompensasi .......... 47
2.6 Penelitian Terdahulu .................................................... 49

III. METODE PENELITIAN
  3.1 Objek Penelitian .......................................................... 51
  3.2 Variabel Penelitian ....................................................... 51
  3.3 Sumber Data ............................................................... 52
    3.3.1 Data Primer ......................................................... 52
    3.3.2 Data Sekunder ...................................................... 53
  3.4 Populasi ....................................................................... 53
  3.5 Metode Pengumpulan Data .......................................... 53
  3.6 Uji Instrumen Penelitian .............................................. 54
    3.6.1 Uji Validitas ......................................................... 54
    3.6.2 Uji Reliabilitas ...................................................... 56
  3.7 Analisis Data ............................................................... 56
    3.7.1 Analisis Data Kuantitatif ........................................ 56
    3.7.2 Analisis Data Kualitatif ......................................... 57
  3.8 Uji Hipotesis ............................................................... 57
    3.8.1 Uji Statistik F (Simultan) ....................................... 57
    3.8.2 Uji Statistik T (Parsial) ......................................... 58
  3.9 Operasional Variabel ................................................... 58

IV. HASIL PENELITIAN DAN PEMBAHASAN
  4.1 Profil Perusahaan ....................................................... 61
4.1.1 Sejarah Umum PT Enseval Putera Megatading Tbk ........... 61
4.1.2 Visi dan Misi ................................................................. 63
4.1.3 Struktur Organisasi Perusahaan ........................................ 63
4.2 Karakteristik Responden ......................................................... 63
4.3 Uji Validitas ........................................................................ 66
4.4 Uji Reliabilitas ..................................................................... 67
4.5 Pembahasan ........................................................................ 69
  4.5.1 Analisis Data Kualitatif .................................................... 69
  4.5.2 Analisis Data Kuantitatif ................................................. 88
  4.5.3 Uji Hipotesis Dan Pembahasan ....................................... 89

V. SIMPULAN, SARAN, DAN KETERBATASAN PENELITIAN

  5.1 Simpulan ........................................................................... 95
  5.2 Saran ................................................................................. 96
  5.3 Keterbatasan Penelitian ....................................................... 97
