

## **ABSTRACT**

### ***E-READINESS MADRASAH ALIYAH NEGERI (ISLAMIC STATE HIGH SCHOOL) IN BANDARLAMPUNG CITY***

*e-Readiness is a competency in the course of integrating education and ICT. This research intents: (1) to find out the implementation of ICT in Madrasah Aliyah Negeri (Islamic State Senior High School) in Bandarlampung City; (2) to reveal the difference of ICT implementation from both MAN; (3) to uncover the obstacles during ICT implementation from both MAN; and (4) to discover the best practice of ICT implementation from both MAN. This is a descriptive and qualitative research along with communication audit method. Researcher analyze the data by using filling system technique and has examined it through triangulation method. This research illustrates that: (1) MAN in Bandarlampung City have implemented ICT fairly well; (2) MAN 1 Bandarlampung and MAN 2 Tanjukurang have diverse electronic readiness process on ICT access, ICT penetration, e-leadership, school policy, and human capital; (3) practically both madrasah have gone through many obstacles for instance operational expense, connectivity, training constraints of ICT, short of e-leadership training, and intrinsic motivation; (4) both MAN in Bandarlampung City haven't produced any best practice during ICT implementation.*

*Key word: e-readiness, MAN (Islamic State High School), Bandarlampung City*
