Regional Regulation No. 16 Year 2011 on the Financial Position of the Village Head and the Village set earnings village head and village consisting of fixed income, legitimate allowances and other benefits. With the implementation of the system of income from government Pesawaran District, the village head and village no longer allowed to manage the ground the village treasury problem in this research is how the application of the system of income Head of Village and the Village in the village of Gedong Dalam Pesawaran District and obstacles in the implementation of revenue village chief and the Village.

The approach used is a problem juridical normative and empirical. The data used are primary and secondary data. The data has been processed and then presented in narrative form, then dintreprestasikan or construed to be discussed and analyzed qualitatively, then to selanjutnya drawn a conclusion.

Based on the results of research and discussion in mind that the application of the system of earning the village chief and the Village in the village of Gedong Dalam Pesawaran District has been implemented properly. It is evident that the provisions that require the village land as a form of salary of the head of the village and the villagers returned to the village to be made in the land of the village treasury. Leveling Fixed Income received by the village and the adjustment of status benefits of marriage. The application of a rule always gives its own consequences to the parties involved or subject to the rules. Obstacles in the implementation of systems and devices village chief income is derived from the village of legislation and implementation. Juridical obstacles arise due to a mismatch between the rules with each other or the rules contradict each other. While the technical barriers that resistances are implementing these rules implemented in the field. This bottleneck is due to the discrepancy between the rules written by the sociological circumstances at the time of execution

Keywords: Implementation, Income System, Device Village.
