DAFTAR TABEL ................................................................................................................. iii

DAFTAR GAMBAR ............................................................................................................... iv

I. PENDAHULUAN
   A. Latar Belakang ............................................................................................................. 1
   B. Rumusan Masalah ..................................................................................................... 6
   C. Tujuan Penelitian ...................................................................................................... 6
   D. Manfaat Penelitian .................................................................................................. 6
   E. Ruang Lingkup Penelitian ........................................................................................ 7
   F. Kerangka Pikir .......................................................................................................... 7
   G. Hipotesis Penelitian ................................................................................................ 9

II. TINJAUAN PUSTAKA
   A. Pembelajaran Kooperatif .......................................................................................... 10
   B. Pembelajaran Kooperatif Tipe STAD .................................................................... 13
   C. Penguasaan Materi ................................................................................................... 17
   D. Sistem Peredaran Darah Pada Manusia .................................................................. 18

III. METODE PENELITIAN
   A. Waktu dan Tempat .................................................................................................... 24
   B. Populasi dan Sampel ............................................................................................... 24
   C. Desain penelitian ..................................................................................................... 24
   D. Prosedur penelitian ................................................................................................... 25
   E. Jenis dan Teknik Pengambilan Data
      1. Jenis Data ............................................................................................................ 31
      2. Teknik Pengambilan Data .................................................................................... 32
   F. Teknik Analisis data ................................................................................................ 32

IV. HASIL PENELITIAN DAN PEMBAHASAN
   A. Hasil Penelitian ....................................................................................................... 34
   B. Pembahasan ............................................................................................................... 35
V. SIMPULAN DAN SARAN

A. Simpulan ........................................................................................................ 41
B. Saran ............................................................................................................... 41

DAFTAR PUSTAKA .......................................................................................... 42
LAMPIRAN ......................................................................................................... 44

1. Perangkat Pembelajaran................................................................................ 46
2. Data Hasil Penelitian.................................................................................... 93
3. Analisis Statistik Hasil Penelitian............................................................... 108
4. Foto - Foto Penelitian.................................................................................. 113
5. Surat - Surat Izin Penelitian....................................................................... 118
