DAFTAR TABEL .................................................................................. vii
DAFTAR LAMPIRAN ....................................................................... viii

I. PENDAHULUAN
   A. Latar Belakang Masalah .......................................................... 1
   B. Rumusan Masalah .................................................................. 9
   C. Tujuan Penelitian .................................................................. 9
   D. Manfaat Penelitian ............................................................... 9
   E. Ruang Lingkup Penelitian....................................................... 10

II. TINJAUAN PUSTAKA
   A. Hakikat Belajar ....................................................................... 11
   B. Pendekatan Kontekstual ......................................................... 12
   C. Hasil Belajar ........................................................................... 18
   D. Kerangka Pikir ...................................................................... 19
   E. Anggapan Dasar dan Hipotesis ................................................ 21
      1. Anggapan Dasar ................................................................. 21
      2. Hipotesis ............................................................................ 21

III. METODE PENELITIAN
   A. Populasi dan Sampel ............................................................. 22
   B. Desain Penelitian .................................................................. 22
   C. Prosedur Penelitian ............................................................. 23
   D. Data Penelitian ...................................................................... 24
E. Metode/Teknik Pengumpulan Data .......................................................... 24
F. Instrumen Penelitian .................................................................................. 24
   1. Validitas ................................................................................................. 24
   2. Reliabilitas ............................................................................................ 25
   3. Tingkat Kesukaran .................................................................................. 26
   4. Daya Pembeda ....................................................................................... 27
G. Teknik Analisis Data .................................................................................. 29
   1. Uji Normalitas ........................................................................................ 29
   2. Uji Proporsi ........................................................................................... 30

IV. HASIL PENELITIAN DAN PEMBAHASAN
   A. Hasil Penelitian ...................................................................................... 31
   B. Pembahasan ............................................................................................ 32

V. SIMPULAN DAN SARAN
   A. Simpulan ................................................................................................ 36
   B. Saran ....................................................................................................... 37
