The problem discussed in this paper is whether the functional supervision influences the effectiveness of the implementation of the Budget Regional Employment Board of Lampung Province?

The purpose of this study was to determine the effect of functional supervision of the effectiveness of the implementation of the Regional budget Regional Employment Board on Lampung Province.

The analytical tool used is a qualitative and quantitative analysis. Qualitative analysis by using the formula set forth in the class interval frequency distribution form, further quantitative analysis using the formula product moment correlation and simple linear regression.

Based on results of research and discussion can be drawn the conclusion that the functional supervision has a positive and significant relationship with the effectiveness of the implementation of the budget amounted to 0.742, is at the level of closeness in a strong criteria. Functional oversight positive and significant impact on the effectiveness of the implementation of the budget, with student t test results, obtained price $t_{count} = 6.736$, when compared with the $t_{table} = 2.042$, then $t_{count} (6.736) > t_{table} (2.042)$. To see significant can be seen that the value of significance (Sig. 0.000) is smaller than the Sign. $\alpha = 0.05$.
