

ABSTRACT

PATTERNS IN ADOLESCENT GUIDANCE SANTRI CONTROL EFFORTS FOLLOW BEHAVIORAL ABERRATIONS (A case study in Pondok Pesantren Darul Falah)

By

EKA PRATIWI

The purpose of this study is to identify and explain the pattern of coaching students in an effort to control teen behavior follow-storage. The method used in this study is qualitative and is determined by purposive sampling of informants. Data obtained from the interviews and use documents. Further data analysis by data reduction, display or presentation of data, and conclusion stage. Location of the study in boarding Darul Falah, Batu Putuk, Teluk Betung Utara, Bandar Lampung. Informants in this study amounted to seven people, consisting of a boarding party boarding school and surrounding community. The result showed that the pattern of the boarding school coaching done more to the pattern of Darul Falah a closed formation and use of guidelines and rules are written as a family. As guidance Such guidance is more efficient than using force or violence against students. Existing regulations are also socialized at any time without any time limit prescribed and used the media of speech and the classics. Control deviation preventive behaviors undertaken by the MPS. The values of Islam which is the most important thing in education in boarding schools are given a conscious move the prophet's life patterns into everyday practice. The response from the community towards the development pattern in the boarding school is different, there are pros and cons of the community.
