

ABSTRACT

FACTORS AFFECTING CHANGES IN THE VALUE OF MONEY HONEST PEOPLE IN TRADITIONAL MARRIAGE LAMPUNG PEPADUN

by

INTAN SUCIANA RAMADHAN

Marriage is a marriage made honest by honest payment of the male to the female. With the receipt of money or goods honestly by the female for the purpose of entering into the female relatives of her husband .. Lampung society based on customs and traditions are divided into two groups, namely a well-mannered society Pepadun Lampung and Lampung are habitual Saibatin Society. In Lampung, a well-mannered society Pepadun customary order of position was evident. Where customary in such arrangements affect the implementation of traditional ceremonies, such as the implementation of the marriage ceremony in which concerns about the value of honest money. The value of honest money in a traditional wedding in Kampung Karang Lampung Pepadun Pekuon Ratu County District Court Way Kanan has three levels that is worth 24 for the group or clan penyimbang earth, worth 12 for the group penyimbang tiuh or queen and 6 to penyimbang inner group or tribe.

In general, this study aims to find out what factors are affecting the changes in the value of honest money in a traditional wedding Pepadun community in Kampung Karang Agung in Lampung. This study uses qualitative research methods using case studies. Sources of information retrieved by purposive sampling, where the selection of informants in the selected deliberately namely permasalahan understand and are willing to provide information. Data collection techniques in this study through observation, depth interviews, and documentation.

Based on the results of this study concluded that at the present time the value of honest money is subject to change, due to the factor income, contacts with other cultures, level of formal education, Information Flow and Transport are getting better, a heterogeneous population and open system of society.
