

ABSTRACT

STUDENTS WORKSHEET IN DEVELOPING SOCIAL VALUES IN GEOGRAPHY SUBJECT

By

MASIR IBRAHIM

The purpose of this research are 1) Create student worksheet in developing social values in geography subject so it can be used as learning resource in geography subject. 2) determine the effectiveness of the use of students worksheet in the developing social values in teaching geography. The development design of this research uses the steps of Dick and Carry. The population of this research are students of class XI MAN 1 North Lampung. The sampling technique use purposive sampling, this research use two classes as the sample, XI. IPS 3 as the experiment class and XI IPS 4 as the control class. Consideration of sampling is the class which has relatively the same ability. The value of this research consist of pretest and posttest value before and after learning then the students achievement is analyzed using t-test. Based on the result of data analysis shows that the effectiveness of teaching in experiment class (using teaching materials of students worksheet) is more effective than the control class significantly. The average increase is experiment class (55,24) is higher than the control class (43,52).
