DAFTAR TABEL ........................................................................ iv
DAFTAR GAMBAR ........................................................................ v
DAFTAR LAMPIRAN ................................................................... vi

I. PENDAHULUAN
   1.1. Latar Belakang .................................................................. 1
   1.2. Rumusan Masalah .............................................................. 5
   1.3. Tujuan Penelitian ................................................................. 5
   1.4. Manfaat Penelitian .............................................................. 6

II. TINJAUAN PUSTAKA
   2.1. Soil Transmitted Helminth (STH) ........................................ 8
       2.1.1. Ascaris lumbricoides .................................................. 8
       2.1.2. Trichuris trichiura ...................................................... 13
       2.1.3. N.americanus dan A. duodenale .................................. 16
   2.2. Respon imun terhadap infeksi kecacingan ........................ 20
   2.3. Teknik pemeriksaan tinja untuk menegakkan diagnosis kecacingan 22
   2.4. Alergi .............................................................................. 25
   2.5. Hubungan infeksi STH dengan alergi ............................... 31
2.6. Kuesioner ISAAC ................................................................. 34
2.7. Kondisi sanitasi Lampung Selatan ..................................... 36
2.8. Kerangka teori .................................................................. 37
2.9. Kerangka Konsep .............................................................. 38
2.10. Hipotesis ......................................................................... 38

III. METODE PENELITIAN

3.1. Desain Penelitian ................................................................ 39
3.2. Waktu dan Tempat Penelitian ............................................ 39
   3.2.1. Waktu Penelitian ...................................................... 39
   3.2.2. Tempat Penelitian .................................................... 39
3.3. Populasi dan Sampel ......................................................... 40
   3.3.1. Populasi Penelitian .................................................. 40
   3.3.2. Sampel Penelitian ................................................... 40
3.4. Variabel Penelitian .......................................................... 41
   3.4.1. Variabel Bebas ......................................................... 41
   3.4.2. Variabel Terikat ....................................................... 41
3.5. Definisi Operasional ........................................................ 42
3.6. Pengumpulan Data .......................................................... 43
   3.6.1. Jenis Data ............................................................... 43
   3.6.2. Alat dan Bahan Penelitian ........................................ 43
3.7. Cara Pengambilan Data .................................................... 43
3.8. Pengolahan dan Analisis Data .......................................... 44
   3.8.1. Pengolahan Data ..................................................... 44
