DAFTAR ISI .......................................................................................................................... i
DAFTAR TABEL .................................................................................................................. iii
DAFTAR GAMBAR .............................................................................................................. iv
DAFTAR LAMPIRAN .......................................................................................................... v

I. PENDAHULUAN .............................................................................................................. 1
   A. Latar Belakang dan Masalah ...................................................................................... 1
   B. Rumusan Masalah ...................................................................................................... 10
   C. Tujuan Penelitian ....................................................................................................... 11
   D. Manfaat penelitian ..................................................................................................... 12
   E. Kerangka Pemikiran .................................................................................................. 12
   F. Hipotesis .................................................................................................................... 13
   G. Sistematika Penulisan ............................................................................................... 15

II. TINJAUAN PUSTAKA ...................................................................................................... 16
   A. Peran Pemerintah ...................................................................................................... 16
      a. Peran Stabilisasi .................................................................................................... 16
      b. Peran Alokasi ........................................................................................................ 17
      c. Peran Distribusi .................................................................................................... 18
   B. Kebijakan Pemerintah Dalam Pembangunan Pertanian ........................................ 19
   C. Kebijakan Harga ......................................................................................................... 19
   D. Permintaan (Demand) ............................................................................................... 24
      a. Faktor yang Mempengaruhi Permintaan ........................................................... 26
         1. Harga Barang lain ............................................................................................... 26
         2. Pendapatan Para Pembeli ................................................................................. 26
         3. Distribusi Pendapatan ..................................................................................... 26
         4. Cita Rasa Masyarakat ....................................................................................... 27
         5. Jumlah Penduduk .............................................................................................. 28
         6. Ekspektasi Masa Depan .................................................................................. 28
E. Hubungan Antara Harga dan Permintaan ........................................ 28

F. Penelitian Terdahulu ......................................................................... 30

III. METODE PENELITIAN .................................................................. 32

A. Jenis dan Sumber Data .................................................................. 32
   1. Jenis Data ........................................................................... 32
   2. Sumber Data ....................................................................... 32

B. Batasan Variabel ........................................................................... 32

C. Alat Analisis ................................................................................ 33
   1. Regresi Data Panel ................................................................. 33
      a. Pemilihan Teknik Estimasi Regresi Data Panel .................. 37
      b. Model Persamaan .............................................................. 39
   2. Pengujian Kriteria Statistik ..................................................... 40
      a. Uji t-statistik ................................................................. 40
      b. Uji F-statistik ............................................................... 41
      c. Penafsiran Koefisien Determinan (R²) ......................... 42

D. Gambaran Umum Tempat Penelitian ......................................... 42

IV. HASIL DAN PEMBAHASAN ......................................................... 45

A. Analisis Pemilihan Model Estimasi Regresi Panel .......................... 45
   1. Uji Chow ........................................................................ 45
   2. Uji hausman ..................................................................... 46

B. Estimasi Hasil Regresi Panel dengan Pendekatan Fixed Effect ...... 47

C. Pengujian Hipotesis .................................................................. 49
   1. Uji Parsial t-statistik ......................................................... 49
   2. Uji F-Statistik ................................................................ 51

D. Pembahasan Hasil Penelitian ..................................................... 52

V. SIMPULAN DAN SARAN .............................................................. 58

   A. Simpulan ............................................................................. 58

   B. Saran .................................................................................. 59
