ABSTRACT

MINAPOLITAN PROGRAM IMPLEMENTATION POLICIES IN SUPPORTING WELFARE SOCIETY AROUND

(Study on Policy Implementation Minapolitan in Districts Pagelaran District Pringsewu)

In order to improve the quality of policy implementation minapolitan, the government established a policy based on issues and problems that occur rural development, development Minapolitan an alternative solution for regional development (rural) in the District Pringsewu. The purpose of this study is to describe the implementation of the program minapolitan and the reasons and values into consideration actions taken by the government or policy actors in the program minapolitan in the District Pringsewu, and to describe the stages of the process of drafting and actors involved in policy implementation Minapolitan in Pringsewu district.

The results showed that the implementation of the program in the District Pringsewu Minapolitan Policy has been performing well based on the steps undertaken by each party/institutions that play a role and in accordance with the guidelines for the implementation of the program Minapolitan set by the Department of Animal Husbandry and Fisheries.

There are obstacles that hinder the process of policy implementation, namely internal factors; a) reduction in the number of farmers b) limitations venture capital c) high production costs d) the lack of facilities and infrastructure to support e) not have processing units f) there is no alternative to adding value g) the quality of human resources and technological support h) the poor quality of seeds i) access to financial institutions, there are also external constraints, namely a) are still common misconception among people about fish farmers b) there are still jealousy among the community of fish farmers with the other communities. c) there is less intense approach of local authorities with community fish farmers. From these results it can be recommended advice as follows: a) financial institutions should be encouraged to support the fisheries sector b) the need to increase infrastructure development c) needs to set a clear indicator to the institutions / agencies.

Keywords: Policy Implementation, factors affecting Implementation.
