

ABSTRACT

INFLUENCE OF FOREIGN OWNERSHIP, MANAGERIAL OWNERSHIP AND INSTITUTIONAL OWNERSHIP TO CORPORATE SOCIAL RESPONSIBILITY DISCLOSURE

By

EGHA INDAH PERTIWI

This research aims to examine empirically about shareholding structure that represented by foreign ownership, managerial ownership and institutional ownership (BUMN and Non-BUMN) of mining companies that listed at Indonesia Stock Exchange toward corporate social responsibility disclosure with leverage and firm's size as controlling variable in 2009-2012 period.

Researcher used purposive sampling method to take 14 companies that suitable with criteria in this research. Total of observation is 56 data. This research is examined by multiple regression.

The result indicates that BUMN institutional ownership affects corporate social responsibility disclosure positively, in contrast other variables such as foreign ownership, managerial ownership and Non-BUMN institutional ownership affects corporate social responsibility disclosure negatively.

Keywords: Foreign ownership, managerial ownership, institutional ownership (BUMN and Non-BUMN), leverage, firm size, and corporate social responsibility disclosure.
