Tujuan penelitian dan pengembangan ini adalah menghasilkan bahan ajar LKS berbasis model *problem based learning* yang layak pada pembelajaran tematik kelas V SD, dan mengetahui keefektivan LKS berbasis model *problem based learning*. Metode yang digunakan adalah penelitian dan pengembangan oleh Borg & Gall. Populasi penelitian adalah siswa kelas V di 6 (enam) sekolah sebanyak 166 orang. Sampel penelitian ditentukan dengan *purposive sampling* sebanyak 55 orang di dua kelas. Alat pengumpul data menggunakan lembar angket untuk kelayakan, dan soal pilihan ganda dan uraian untuk mengukur efektivitas. Data dianalisis menggunakan rumus Uji-t. Hasil penelitian menunjukkan bahwa LKS berbasis model *problem based learning* layak digunakan, dan efektif meningkatkan hasil belajar siswa.

Kata Kunci:LKS, *problem based learning*, hasil belajar.
