Oleh
FIKRI SYAHPUTRA

Penelitian ini bertujuan untuk menganalisis struktur pendapatan rumah tangga anggota koperasi, menganalisis distribusi pendapatan rumah tangga anggota koperasi, menganalisis tingkat partisipasi anggota koperasi, menganalisis pengaruh partisipasi anggota terhadap manfaat ekonomi koperasi yang diterima oleh anggota koperasi, menganalisis struktur pendapatan rumah tangga anggota koperasi, menganalisis distribusi pendapatan rumah tangga anggota koperasi, menganalisis tingkat kesejahteraan dan faktor – faktor yang berpengaruh terhadap kesejahteraan anggota koperasi. Penelitian ini dilakukan dengan menggunakan metode studi kasus. Pengambilan data dilakukan pada September-Oktober 2016. Responden penelitian sebanyak 55 orang yang secara keseluruhan anggota koperasi. Data yang dikumpulkan terdiri dari data primer dan data sekunder. Metode analisis yang digunakan adalah analisis tingkat partisipasi, analisis pendapatan, analisis distribusi pendapatan, analisis kesejahteraan dan analisis regresi binnary logistik. Hasil penelitian menunjukkan bahwa tingkat partisipasi anggota dalam RAT dan membayar simpanan wajib termasuk dalam kategori tinggi sedangkan partisipasi dalam pemanfaatan unit-unit usaha termasuk dalam kategori rendah. Partisipasi anggota koperasi tidak berpengaruh nyata terhadap besarnya manfaat ekonomi koperasi yang diterima anggota dalam satu tahun terakhir. Struktur pendapatan rumah tangga anggota koperasi terdiri pendapatan *on farm utama, on farm non utama, off farm, non farm*, dan manfaat ekonomi koperasi. Distribusi pendapatan rumah tangga anggota koperasi termasuk dalam kategori ketimpangan yang rendah. Berdasarkan indikator *socio metrix*, sebanyak 70,91% termasuk dalam kategori sejahtera dan sisanya 29,09% tidak sejahtera. Variabel lama pendidikan, lama keanggotaan, dan pendapatan rumah tangga berpengaruh positif terhadap tingkat kesejahteraan.

Kata kunci : distribusi pendapatan, kesejahteraan anggota, pendapatan

ABSTRACT

ANALYSIS OF LEVEL OF PARTICIPATION, STRUCTURE AND DISTRIBUTION OF HOUSEHOLD INCOME AND LEVEL OF WELFARE OF COOPERATIVE MEMBERS OF BUSINESS COMMUNITY MOTIVATION OF DOA IKHTIAR TAWAKKAL (KSUP MDIT) IN GISTING DISTRICT TANGGAMUS DISTRICT

By

This study aims to analyze the household member income structure of cooperatives, analyze the distribution of household member income cooperatives, analyze the participation level of cooperative members, analyze the influence of members' participation on the economic benefits of cooperatives received by cooperative members, analyze the household member income structure of cooperatives, analyze the distribution Household income of cooperative members, analyzing the level of welfare and factors influencing the welfare of cooperative members. This research is done by using case study method. The data were collected from September to October 2016. Research respondents were 55 people who were all members of the cooperative. The data collected consist of primary data and secondary data. The analysis method used is the analysis of participation rate, income analysis, income distribution analysis, welfare analysis and binnary logistic regression analysis. The results showed that the participation rate of members in RAT and pay mandatory savings included in the high category while participation in the utilization of business units included in the low category. The participation of cooperative members has no significant effect on the economic benefits of cooperatives received by members in the past year. The cooperative member's household income structure comprises on-farm primary, off farm non-primary, off farm, non farm, and cooperative economic benefits. Distribution of household member income of cooperatives is included in the category of low inequality. Based on the socio metrix indicator, 70.91% are included in the prosperous category and the remaining 29.09% are not prosperous. Variable of old education, long membership, and household income have a positive effect to welfare level.

Keywords : distribution income, income, member welfare
