

ABSTRAK

PENGARUH KARAKTERISTIK DESA TERHADAP EFISIENSI KEUANGAN DESA DI LAMPUNG

Oleh

Fitri Indayani

Penelitian ini bertujuan untuk mendapatkan bukti empiris mengenai pengaruh karakteristik desa terhadap efisiensi keuangan desa di Lampung. Pada penelitian ini karakteristik desa diproksikan dengan ukuran desa, tingkat kekayaan dan tingkat ketergantungan.

Pengambilan sampel pada penelitian ini dengan kriteria berdasarkan Indeks Kemajuan Desa (IKD). Periode data diambil selama 2 tahun yaitu tahun 2015 sampai dengan tahun 2016 pada desa tiap Kabupaten di Provinsi Lampung. Jumlah sampel 108 desa maju dan 272 desa berkembang sehingga data penelitian yang digunakan sebanyak 760 data observasi. Analisis data dilakukan dengan analisis data panel dan pengolahan data penelitian dengan menggunakan alat uji statistik *Eviews 9*.

Berdasarkan hasil penelitian ini menunjukkan bahwa variabel ukuran berpengaruh negatif signifikan, variable tingkat kekayaan tidak berpengaruh dan variable tingkat ketergantungan berpengaruh positif signifikan terhadap efisiensi keuangan desa.

Kata kunci: efisiensi, ukuran, tingkat kekayaan dan tingkat ketergantungan

ABSTRACT

THE INFLUENCE OF VILLAGE CHARACTERISTICS TOWARDS THE EFFICIENCY OF VILLAGE FINANCE IN LAMPUNG

By

Fitri Indayani

This study is purpose to obtain empirical evidence of the influence of village characteristics towards the village financial efficiency in Lampung. In this study the characteristics of the village are proxied with the size of the village, the level of wealth and the level of dependence.

Sampling criteria in this study with based on Village Progress Index (IKD). Period of data was taken for 2 years from 2015 until 2016 in the village of each district in Lampung Province. The number of samples consist of 108 developed villages and 272 developing villages so that the research data which is used about 760 observation data. Data analysis was conducted by panel data analysis and the processing of data research is using Eviews 9 statistical test.

Based on the results of this study indicate that the variable size has a significant negative effect, the variable level of wealth has no effect and variable the level of dependence has a significant positive effect towards the village financial efficiency.

Keywords: *efficiency, size, level of wealth and level of dependence*
