DAFTAR TABEL

Tabel 2.1. Spesifikasi Raspberry Pi ................................................................. 7
Tabel 2.2. Perbandingan Penelitian ............................................................... 21
Tabel 3.1. Lembar Pengujian ........................................................................... 34
Tabel 3.2. Jadwal Penelitian .......................................................................... 36
Tabel 4.1. Tabel Database Ping International ................................................. 48
Tabel 4.2. Tabel Database Ping Indonesia ...................................................... 48
Tabel 4.3. Tabel Database Ping BGP Server .................................................. 48
Tabel 4.4. Tabel Database Ping Google ............................................................ 48
Tabel 4.5. Tabel Database Listrik ................................................................. 48
Tabel 4.6. Tabel Database Bandwidth International ....................................... 49
Tabel 4.7. Tabel Database Bandwidth Indonesia ........................................... 49
Tabel 4.8. Tabel Database Bandwidth BGP Server ......................................... 49
Tabel 4.9. Tabel Database Temperatur ........................................................... 49
Tabel 4.10. Tabel Database Ping International (Limit 30 Input) ..................... 49
Tabel 4.11. Tabel Database Ping Indonesia (Limit 30 Input) .......................... 50
Tabel 4.12. Tabel Database Ping BGP Server (Limit 30 Input) ....................... 50
Tabel 4.13. Tabel Database Ping Google (Limit 30 Input) .............................. 50
Tabel 4.14. Tabel Database Listrik (Limit 30 Input) ........................................ 50
Tabel 4.15. Tabel Database Bandwidth International (Limit 30 Input) .......... 50
Tabel 4.16. Tabel Database *Bandwidth* Indonesia (Limit 30 Input) ...................... 51
Tabel 4.17. Tabel Database *Bandwidth BGP Server* (Limit 30 Input) .................. 51
Tabel 4.18. Tabel Database *Bandwidth BGP Server* (Limit 30 Input) .................. 51
Tabel 4.19. Persentase Kondisi Rata – Rata Ruang Pusat Data.............................. 86
Tabel 4.20. Persentase rata - rata tiap temperatur ............................................. 86
Tabel 4.21. Tabel Pengiriman SMS ........................................................................ 93
Tabel 4.22. Tabel Rekapitulasi Pengujian Web ........................................................ 96
Tabel 4.23. Rakapitulasi Pengujian Laporan *Email* dan *SMS* .............................. 97
Tabel 4.24. Penggunaan storage pada Mysql ......................................................... 99
Tabel 4.25. Corrective Maintenance ....................................................................... 106
