

ABSTRACT

HEALTH AGENCY OF BANDAR LAMPUNG LOCAL GOVERNMENTS PERFORMANCE IN PREVENTING AND CONTROLLES HUMAN IMMUNODEFICIENCY VIRUS (HIV) AND ACQUIRED IMMUNE SYNDROME (AIDS)

By

REVARDO MARSEL

The Health Health Agency is the implementor unit of health services in Bandar Lampung City. The Health Agency plays an important role in dealing with health problems that occurred in Bandar Lampung. One of the phenomenon of health problems in Bandar Lampung is the spreading of Human Immunodeficiency Virus (HIV) and Acquired Immune Syndrome (AIDS). This research aims to describe the Health agency of Bandar Lampung local goverments performance in preventing and controlles of HIV AIDS in Bandar Lampung. The indicators of performance were relied based on Agus Dwiyanto's theories, namely: Productivity, Responsiveness, Responsibility and Accountability. The method used in this research is descriptive type with qualitative approach. The data was collected through in-depth interviews, documentation and observations. While the data analysis technique was carried out using data reduction, data presentation and data conclusion.

The results showed that the performance of Health Agency of Bandar Lampung City in the prevention and control of HIV is a good performance and in accordance with the principle of prevention and mitigation activities. One of the weaknesses experienced by the Health Agency included: the is lack of budget. The existence of limited authority and the exclusive nature of the society have hampered the Health Agency in achieving the target range. It is suggested that the Health Agency of Bandar Lampung to allocate more budget in the prevention and control of HIV AIDS and also to strengthen the coordination among agencies.

ABSTRAK

KINERJA DINAS KESEHATAN KOTA BANDAR LAMPUNG DALAM PENCEGAHAN DAN PENANGGULANGAN *HUMAN IMMUNODEFICIENCY VIRUS (HIV) DAN ACQUIRED IMMUNE SYNDROME (AIDS)*

Oleh

REVARDO MARSEL

Dinas Kesehatan merupakan pelaksana pelayanan bidang kesehatan di Kota Bandar Lampung, yang berperan dalam menangani permasalahan kesehatan yang terjadi di Bandar Lampung. Salah satu fenomena permasalahan kesehatan yang ada di Bandar Lampung adalah penyebaran *Human Immunodeficiency Virus (HIV)* dan *Acquired Immune Syndrome (AIDS)*. Penelitian ini dilakukan di Dinas Kesehatan Kota Bandar Lampung serta Layanan komperhensif dan berkesinambungan di Bandar Lampung. Tujuan penelitian ini mendeskripsikan kinerja Dinas Kesehatan Kota Bandar Lampung dalam pencegahan dan penanggulangan HIV AIDS pada masyarakat kota Bandar Lampung. Indikator kinerja berdasarkan teori Agus Dwiyanto yaitu: Produktivitas, Responsivitas, Responsibilitas dan Akuntabilitas. Metode yang digunakan pendekatan kualitatif, tipe deskriptif. Pengumpulan data dilakukan dengan wawancara mendalam, dokumentasi dan observasi. Teknik analisis data melalui reduksi data, penyajian data dan penyimpulan data.

Hasil penelitian menunjukkan bahwa kinerja Dinas Kesehatan Kota Bandar Lampung dalam pencegahan dan penanggulangan HIV sudah baik dan sesuai dengan prinsip kegiatan pencegahan dan penanggulangan. Kendala yang dihadapi Dinas Kesehatan yaitu masih adanya keterbatasan anggaran, Adanya keterbatasan wewenang dan sifat masyarakat yang tertutup, menjadi kendala Dinas Kesehatan dalam pencapaian target jangkauan. Sebaiknya Dinas Kesehatan dan Pemerintah Kota Bandar Lampung meningkatkan anggaran dana pencegahan dan penanggulangan HIV AIDS dan memperkuat koordinasi antar instansi.
