MERAH BANGSAWAN

In order to achieve the national goals, national development must be implemented in all sectors of national life. Development sectors, among others, the political, economic, cultural sector, the legal sector, the sector of science and technology as well as security sector. In order to achieve all at the necessary role of the State in developing and implementing public policy in the field of welfare (public welfare). Is necessary national program which aims to intervene to tackle the problem of poverty is the Accelerated Program Development Backward Production Area (P2KP-DT) that published since 2007.

Kabupaten Lampung Barat is one of regencies in Lampung province that has people below the poverty line with a percentage of about 15% in 2007 and also is a target P2KP-DT courses. Evaluation of Accelerated Program Development Backward Production Area (P2KPDT) in West Lampung in 2009 also carried out starting from the planning, implementation, monitoring and evaluation, in accordance with the principles of the implementation of the program in coordinated and supervised by Kader Penggerak Pembangunan Satu Bangsa Produksi (KPPSB-UP) which was accompanied by Assistant Field Officer. P2KP-DT program in the Kabupaten Lampung Barat aims to achieve self-reliance and increase community participatory empowerment to alleviate themselves from poverty. Also expected later, participation in the program P2KP-DT in West Lampung is not only carried out or carried out by people who belong to the category of poor, but also by all elements of society, so that there is a complementary relationship in advancing the welfare of society as a collective together.

This research uses a case study because it seeks to determine the impact of development policies in the underdeveloped areas of Kabupaten Lampung Barat government in dealing with the impact of the acceleration of the development of

underdeveloped areas indicated production has not run optimally. This study uses descriptive type (describe) with a qualitative approach.

In this study, researchers focused on the research problem has been the achievement of program outcomes that the Government of Kabupaten Lampung Barat and to find out what are the constraints of Kabupaten Lampung Barat government in evaluating the impact of regional development programs in disadvantaged areas of production in 2009

Achievement of Livestock program, directed towards cattle Ongole breed of race. The beneficiaries are the five groups of farmers in five districts in the West Lampung district Sekincau, Cane Garden, tenong Way, South Coast, and Building Surian. So the meat self-sufficiency targets that have been set by the Government of Kabupaten Lampung Barat can be achieved. While the achievement of Plantation Field, community development assistance from the Ministry PDT superior rubber. Help is held on an area of 180 hectares, involving about 140 families (KK) that farmers in the village Negeri Ratu Tenumbang, Pelita Jaya village, and in the Village Sukarame in Kecamatan Pesisir Selatan of Kabupaten Lampung Barat. It can be seen that where secondary forest contains a mixture of forest that had been controlled by the clan turn out to be superior to rubber plantations.

Socioeconomic impacts are expected to continue to grow with additional program Adaiah a good production of road construction funds sourced from the Kabupaten Lampung Barat government and sourced from self-sufficiency in agriculture and animal husbandry in the area. Thus it can be concluded that in general that the program P2KP-DT in Kabupaten Lampung Barat multiflier Effect has given a very large area in the development of production. As for the people of Kabupaten Lampung Barat particular beneficiary group P2KP-DT program can improve the welfare of her life for the better
