III. METODE PENELITIAN
A. Metode Penelitian.................................................................32
B. Desain Penelitian.................................................................33
C. Populasi dan Sampel
   1. Populasi ..............................................................................34
   2. Sampel ..............................................................................34
D. Variabel dan Definsi Operasional .........................................36
E. Prosedur Pelaksanaan Penelitian ...........................................37
F. Instrumen Penelitian............................................................38
G. Teknik Pengumpulan Data ..................................................40
H. Valisitas dan Reabelitas Alat Ukur
   1. Uji Validitas..........................................................................42
   2. Uji Reliabilitas ......................................................................43
   3. Tingkat Kesukaran ..............................................................44
   4. Daya Pembeda ......................................................................44
I. Teknik Analisis Data
   1. Pencapaian Indikator Kognitif .............................................46
   2. Uji Normalitas .......................................................................46
   3. Uji Hipotesis .........................................................................47

IV. HASIL PENELITIAN DAN PEMBAHASAN
A. Hasil Penelitian
   1. Gambaran Umum SMP Negeri 1 Kasui ............................54
   2. Visi dan Misi serta Tujuan SMP Negeri 1 Kasui
      a. Tujuan Pendidikan Dasar ..............................................54
      b. Visi .................................................................................55
