**by
Boy Fernandes Sinaga**

The purpose of this study was to determine to find out and get an in-depth explanation of the role of members of Parliament South Lampung constituencies in the conflict areas of conflict handling Balinuraga - Agom .

This research was conducted in two districts namely Balinuraga Village Way Panji District of South Lampung District and Rural District of Kalianda Agom South Lampung regency . Informants of this study are members of South Lampung Parliament constituencies conflict areas and supported by community leaders and villagers village Balinuraga Agom , data was collected through interviews and documentation . Data processing is done qualitatively .

The results of this study indicate that the role of members of Parliament in the electoral district of South Lampung region in conflict resolution conflict - Agom Balinuraga when viewed from interviews with two members of the board of both the board members have a role in the handling of conflicts led to perform the function as

a board member . This means that two members of the board equally balanced or address conflict.

Furthermore, when viewed from kesetujuannya level , it is justified by the respective village heads and village to village agom balinuraga who said that board members have a role in the handling of conflicts led .
