

ABSTRACT

THE STUDY OF CRIMINAL LAW AGAINST CRIMINAL ACTS OF AUTHENTIC DOCUMENTS COUNTERFEITING IN NATIONAL EDUCATION SYSTEM LAW

BY

ACHMAD DEFYUDI

The development in education is a very strategic aspect in national development, all parties involved must be guided and follow all regulations set by the government. Law problems in education are lack of attentions especially for the problems of authentic documents counterfeiting occurred in TS school is educational crime which is disadvantageous for the society and all parties. The writer studied about the process of handling the authentic documents counterfeiting in national education system law which had handicaps in completing the process of investigation caused by the limited witness who directly knew the act of authentic documents counterfeiting so that it becomes a problem in the process of investigation.

The approach method used in the research was normative juridical approach method, began with the analysis of provisions related to the problems. This method was used because the main problems investigated about the provision act of authentic documents counterfeiting was about the school founding license done by the principal of the school SW but the school of TS was still operating without any acts from the government.

The crime of counterfeiting authentic acts occurred in education field had handicaps in accomplishing case files as a result of different understanding among the investigators and the public prosecutor in applying the understanding of crime act of authentic acts namely the school founding license occurred in SMK TS, so that there was no legal certainty that the process of education was still operating although it was indicated that in the process there was no legal license from the government.

It needs to acquire similar understanding toward the case of authentic documents counterfeiting acts by the investigator and the public prosecutor so that it can give legal certainty and it does not show that the government let the illegal process in education field which causes loss in many parties specially for the students, parents, and other parties as a result of that law events.

Key words : Authentic Documents Counterfeiting Acts, National education System
