Government's efforts in addressing the issue of Street Children, Homeless and Beggars always have across obstacles. Bandar Lampung city has issued Regional Regulation No. 3 of 2010 on the Living Enhancement of Waif Children, Homeless and Beggars. However, based on latest data has shown that since the implementation of such regulation, the number of street children, homeless and beggars have increased. The purpose of this study was to analyze Inhibiting factor toward the implementing the regulation No. 3 of 2010 on the living enhancement of Street Children, Homeless and Beggars.

The theory used in this research is about Theory of Inhibiting Factors expressed by Darwin cover Interest, Principle Benefits, Culture, Executive Officers and Budget . Type of research is a qualitative approach using descriptive analysis, and then data research was collected through interviews. The data obtained from the study was analyzed using descriptive analysis techniques

Based on interviews, it can be concluded that the obstruction of implementing such regulation is caused by the conflict of interest among the person or group of person who make benefit due to the existence of waif children , the homeless and the beggars . On the other hand, most people do not know the intent and the purpose of the legislation due to the lack of socializing itself. Psycho- mentality of the children, the homeless and beggars to keep cadge on and on. Furthermore the enforcement of legislation supremacy could be less. Either a fine or jail sentences by the executing officers have not been running as well. It could be caused by very limited budget , especially in the construction of shelter homes of Street Children , Homeless and Beggars

Keywords : destitution , policy .
