

ABSTRACT

UNDERSTANDING THE APPARATUS OF THE PRINCIPLES OF GOOD GOVERNANCE *(Study On Local Employment and Training Agency Pringsewu District)*

By

Yus Amri Agus

The successful implementation of good governance is largely determined by the involvement and synergy of three main actors are government officials, community, and private parties. In governance, the government apparatus is one of the important actors in control of the ongoing process of governance. The involvement of government officials in supporting the success of governance is determined among others by understanding the concept of good governance and its practicing are strongly associated with government bureaucracy and bureaucratic management.

This study aims to gain insight about understanding apparatuses Regional Personnel Agency (BKD) and Training in District Pringsewu with regard to the principles of good governance. This type of research is classified into the type of research "descriptive survey", with a quantitative approach. Descriptive survey is to portray the things that contain the facts, classification, and measurement. Data analysis techniques used in this research is descriptive quantitative data that is obtained in the field will be presented in the form of numbers. Analysis tool used is the average (Mean), percentage, ranking, and tabulation.

The results showed that the understanding of the District Government officials Pringsewu against the principles of good governance included in the category "not understand". Still lack of understanding of Local Government apparatuses Pringsewu district to the principles of good governance in the cognitive (knowledge) which includes the ability to think, learn and solve problems such comprehensive knowledge, applicative, analytical, and evaluative knowledge. They better understand the principles of affectively-applicative. As a result they have only a partial understanding of the existence of the principles of good governance is. More cognitively understanding gained after they become a public service, namely through education and leadership training. As a result of lack of understanding or even misunderstanding of the principles of good governance also affects the quality of understanding on the basic tasks and functions (tupoksi) local agency personnel that resulted in obscurity workflow especially in this case is the service function as the primary function of government.

Keywords: Understanding, Principles of Good Governance.
