

ABSTRACT

IMPLEMENTATION OF FREE LAND CERTIFICATE PROGRAM IN BANDAR LAMPUNG CITY

by

Satria Prima Putra

Bandar Lampung City's Government launched the free land certificate program in cooperation with the National Land Agency (BPN) of Bandar Lampung. But the reality that in 2011 the data of the BPN contains as many as 680 submissions certificate fields but only 435 certificates already completed. While the year 2012 has completed 367 of 888 field, and by 2013 as many as 143 submissions only field. This makes the people complaining about problems Bandar Lampung land titling program because it is no ambiguity completion time. This study aims to analyze the Certificate Program Implementation Free Land in Bandar Lampung. This research is a descriptive study with a qualitative approach and the locus in Bandar Lampung.

Based on the research found that: (1) lack of communication aspect goes well, less visible from the public participated in the preparation stage. (2) Aspects Resources also runs poorly. Judging from the BPN have limited human resources accordingly. While the indicator has been met with good facilities. (3) Aspects of the disposition of the policy implementers have the attitude and high motivation for the implementation of regional programs of land titles. (4) Aspects of the structure of the bureaucracy, going pretty well seen from the aspect of the use of standard operating procedures that use standard operating procedures in the form of technical implementation of the program.
