

ABSTRACT

GRANTING OF PERMITS PRIVATE SCHOOLS IN BANDAR LAMPUNG

By
Meitupa Adhipurna

Education is a way to educate the nation that is set in the opening Act of 1945 4th paragraph and want to achieve national education goals. The establishment of a private school education all the operational needs of the school and as a foundation borne reciprocal foundation of education to require students to pay a pre-determined donation. The issue of educational funding for private schools stakeholders large and well-established category would no longer be a problem.

How research problem is the implementation of granting permission to establish private schools in the city of Bandar Lampung and whether factors that become an obstacle in the implementation of granting permission to establish private schools in the city of Bandar Lampung.

Analysis of data used in the study is descriptive qualitative analysis. The definition is descriptive qualitative research procedures which produce descriptive data that is what is stated by the respondent in writing or verbal and real behavior.

Based on the results we concluded that to provide educational services for young children of the unit through a private school education, education providers (private schools) have to fulfill some conditions apply. One of them has an operating permit operation of private schools. On the establishment of private schools all operational needs of school education was borne as a foundation and a foundation of reciprocity requires that students pay a predetermined educational donations.

Factors that become an obstacle in the implementation of the provision permits a private school in Bandar Lampung is the length of the documents, permissions must be taken care by the foundation in establishment requirements in the process of establishment of private schools.

Suggestions in this study 1). It is better to give Education Department Standard Operating Procedure (SOP) to the foundation seeking to establish private schools 2). You should set up a good coordination between the foundation and the licensing department and related agencies to conduct surveillance and comprising teams to locations that have been determined in particular on the establishment of private schools.
