

ABSTRACT

THE FULFILLMENT OF THE RIGHT TO EDUCATION OF PERSON WITH DISABILITIES IN BANDAR LAMPUNG

By

RIZAL IHUTRAJA SINURAT

One of the purpose of the establishment of Indonesian is educating the nations, the state is required to establish and promote the right of citizens to education without exception of persons with disabilities. The limitation condition of person with disabilities lead to different forms and way of the fulfillment of accessing education. Person with disabilities are a group that vulnerable to neglect their rights and discrimination. Based on data that obtained from the social service showed the higher the level of education the less people with disabilities who can access it. Government of Bandar Lampung to the concept of local autonomy has an obligation to ensure implementation of education. The purpose of this research is knowing the fulfillment of the right to education of person with disabilities in Bandar Lampung and what factors inhibiting and supporting the fulfillment. This research is an empirical Juridical; Data obtained from the primary data and secondary data. The result of this research: the government of Bandar Lampung has provided a guarantee the right to education in Local Regulation number 01 about Implementation of Education, which also governs on Inclusive Education. The research show the fulfillment of the right to education have not been fulfilled but had prepared special school, center of teaching and learning activities and inclusive school. Some facilities and infrastructure that have not been fulfilled as yet prepared access to education, such as lack of classrooms, textbooks, the special school that too far, and the graduate of the special education which also become an obstacle, Unpreparedness inclusive school. The government should issue regulations on the administration of technical Inclusive education and give quota in Community Development program to persons with disabilities.
