

V. CONCLUSIONS AND SUGGESTIONS

This chapter describes the conclusion of the result of the research and also the suggestion from the researcher to other researchers and English teachers who want to try apply flashcards in teaching vocabulary.

5.1 Conclusions

Based on the research finding, the conclusion can accordingly be stated as follow :

1. Using flashcards can improve the students vocabulary mastering because picture can stimulate and attract students attention during teaching learning English in the classroom.

The students memorize word easily. After conducting the action research, the researcher indentified that the students were more familiar with the English word. They can directly knew the meaning by looking and imagining the picture flashcard. The students could remember the English word without feeling stress of frightening situation.

2. The use of flashcards helps the teacher to enrich her teaching performance, it makes English effective for the students. The teacher is able to give more acknowledgment to students by using pictures as media. The students pronounce words correcly. After conducting the action research, the students ability in pronouncing the English word improved. But, it need extra time to drill and repeat in drilling one word.

5.2 Suggestions

Based on the conclusion cited above, some suggestions are recommended as follow :

1. The teacher is recommended to use media in teaching English vocabulary to improve students mastery. The teacher should be more creative to anticipate.
