ABSTRAK

**HUBUNGAN PENGGUNAAN *SMARTPHONE* DENGAN
MOTIVASI BELAJAR PESERTA DIDIK
KELAS V SEKOLAH DASAR**

Oleh

DELIA RINDANG ANGGRAINI

Masalah dalam penelitian ini adalah rendahnya motivasi belajar peserta didik di SD. Penelitian ini bertujuan untuk mengetahui hubungan penggunaan smartphone dengan motivasi belajar peserta didik kelas V SD. Metode penelitian yang digunakan adalah ex-post facto. Populasi berjumlah 190 peserta didik dan sampel penelitian berjumlah 66 peserta didik. Teknik pengambilan sampel menggunakan proporsionate stratified random sampling. Teknik pengumpulan data menggunakan angket dengan skala likert diuji validitas dan reliabilitas. Teknik analisis data menggunakan korelasi product moment. Hasil penelitian menunjukkan terdapat hubungan yang signifikan antara penggunaan smartphone dengan motivasi belajar peserta didik kelas V SD yaitu berada pada taraf "kuat".

Kata kunci**:** motivasi belajar, penggunaan *smartphone*.

ABSTRACT

**THE RELATION BETWEEN THE USE OF *SMARTPHONE*
WITH THE LEARNING MOTIVATION
OF FIFTH GRADE STUDENTS
OF ELEMENTARY SCHOOL**

By

DELIA RINDANG ANGGRAINI

The problem in this research is the low learning motivation of elementary school students. This study aims to determine the relationship between *smartphone* use and the learning motivation of fifth grade elementary school students. The research method used is ex-post facto correlation. The population was 190 students and the research sample was 66 students. The sampling technique used is proporsionate stratified random sampling. The technique of collecting data using a questionnaire with a likert scale was tested for validity and reliability. The data analysis technique used product moment correlation. The results showed that there was a significant relationship between the use of smartphones and the learning motivation of fifth grade elementary school students, which was at the "strong" level.

Keywords**:** learning motivation*,* the use of *smartphone*.
