

ABSTRAK

HUBUNGAN MOTIVASI ORANG TUA DENGAN HASIL BELAJAR MATEMATIKA PESERTA DIDIK KELAS V SEKOLAH DASAR

Oleh

RIZKITA VIRGINIA TARUNA

Masalah pada penelitian ini adalah rendahnya hasil belajar matematika peserta didik kelas V Sekolah Dasar. Tujuan penelitian ini adalah untuk mengetahui hubungan antara motivasi orang tua dengan hasil belajar matematika peserta didik kelas V Sekolah Dasar se-Gugus Melati Natar, Lampung Selatan pada tahun pelajaran 2020/2021. Metode penelitian ini menggunakan *ex-postfacto* korelasi. Jenis penelitian ini adalah penelitian kuantitatif. Teknik pengumpulan data kuesioner dan dokumentasi. Teknik analisis data dalam penelitian ini menggunakan korelasi person *product moment*. Populasi dalam penelitian ini berjumlah 113 peserta didik dengan sempel 53 peserta didik. Teknik pengambilan sempel dengan teknik *probability sampling* yaitu *proportionate stratified random sampling*. Berdasarkan hasil penelitian ini, diperoleh bahwa terdapat hubungan antara motivasi orang tua dengan hasil belajar matematika peserta didik kelas V Sekolah Dasar se-Gugus Melati Natar, Lampung Selatan pada tahun ajaran 2020/2021 bertaraf "sedang".

Kata kunci: motivasi orang tua, hasil pelajaran.

ABSTRACT

THE TELATIONSHIP BETWEEN PARENTS`T MOTIVATION AND MATHEMATICS LEARNING OUTCOMES OF GRADE V ELEMENTARY SCHOOL STUDENTS

By

RIZKITA VIRGINIA TARUNA

The problem in this study is the low mathematics learning outcomes of grade V elementary school students. The purpose of this study was to determine the relationship between parental motivation and mathematics learning outcomes of fifth grade elementary school students in the Melati Natar Cluster, South Lampung in the 2020/2021 academic year. This research method uses ex-postfacto correlation. This type of research is directed kuantitatif. The technique of collecting questionnaire data and documentation. Technical analysis of data in this study is the correlation of person product moment. The population in this study amounted to 113 students with a sample of 53 students. The sampling technique used is probability sampling technique, namely proportionate stratified random sampling. Based on the results of this study, it was found that there was a relationship between parents' motivation and the mathematics learning outcomes of the fifth grade elementary school students in the Melati Natar Cluster, South Lampung in the academic year 2020/2021 with a level of "medium".

Keywords: parents' motivation, learning outcomes.
