ABSTRACT

SOCIAL ECONOMIC IMPACT OF COMMUNITY DURING THE COVID-19 PANDEMIC AT TIYUH MULYA KENCANA CENTRAL TULANG BAWANG SUB-DISTRICT WEST TULANG BAWANG DISTRICT

By

Nurul Arifah

This study aims to determine: (1) The socio-economic impact of the community in the field of education during the COVID-19 pandemic in Tiyuh Mulya Kencana. (2) The socio-economic impact of the community in the field of work during the COVID-19 pandemic in Tiyuh Mulya Kencana. (3) The socio-economic impact of the community in the field of community income during the COVID-19 pandemic in Tiyuh Mulya Kencana. The research in this study used a qualitative approach with a descriptive method. The data analysis technique uses the Miles and Huberman model analysis technique.

The results of this study indicate that: (1) The positive impacts of the COVID-19 pandemic in Tiyuh Mulya Kencana are the participation of parents, the use of technology and networks, innovation of learning media and distance learning. While the negative impacts are difficulty understanding the material, lazy students, misuse of cellphones and the limitations of online administration. (2) The positive impact in the field of work is that the community is creative and innovative in creating new jobs, the use of technology and networks in doing work, and work can be done remotely. While the negative impact in the field of community work is that people who cannot use technology only rely on energy to get work. (3) The positive impact of the COVID-19 pandemic in the field of community income is an increase in people's incomes who can utilize technology and an increase in people's mindsets in obtaining income. Meanwhile, the negative impact in the income sector is that there are still many people who have limited income and the price of rubber as the main livelihood of the people in Tiyuh Mulya Kencana is unsTable.
